

SUMMER PACKET

Rising
**3rd
Grade**

June 1, 2026

Dear Rising 1-5 Families,

With summer around the corner, we have been hard at work reflecting on prior years and compiling meaningful activities that you and your children can do this summer. As research states, students can experience up to a 40 percent loss in skills over the summer and we would like to ensure that our Lehrman students do not experience this. Therefore, the teachers and I have spent a great deal of time selecting the most engaging and necessary activities that your children should be able to easily complete, all the while keeping their minds active and current.

Every student entering grades 1-5 will receive a summer packet. This packet is meant to be a review of previously learned skills and an opportunity for practice over the summer. We have selected pages in most academic disciplines: math, reading comprehension and grammar. Please have your child complete this packet and bring it on the first day of school. Additionally, each grade has a required book. This book should also be read before returning to school.

As you will see each grade looks different, as it is tailored specifically to the students entering that grade. Additionally, we would like to let you know that all of our Lehrman apps will be open all summer for you to use. You may access them through the student home page.

Your child will be bringing home their summer work today. It will also be available on our Lehrman website. Thank you in advance for your collaboration. Have a great summer!
